SKILLS

Programming Languages:	Java, JavaScript, Html, MERN stack development, C language
Libraries/Frameworks:	React, Tailwind
Databases:	SQL, MongoDB

PROJECTS / OPEN-SOURCE

Shivani-Portfolio | Link   *JavaScript, HTML, Tailwind CSS, React, React-Router*

I have developed a responsive portfolio website using React, React Router, and Tailwind CSS, featuring a dark theme and dedicated sections for my resume and achievements. Also my best repositories are also included in it.

Password-Generator | Link   *JavaScript, HTML, CSS*

I have developed a secure and customizable password generator using React and Tailwind CSS, allowing users to generate strong passwords with adjustable criteria.

CurrencyConverter | Link   *JavaScript, HTML, CSS*

I have built a dynamic currency converter using React, enabling real-time currency exchange rate calculations with a user-friendly interface

todo-context-local | Link

Developed a Todo website using React, leveraging Context API for state management and Local Storage for persistent task saving, ensuring a seamless user experience.

easy-feet(currently working) | Link

Working on Easy Feet, a shoe e-commerce website built with React and Tailwind CSS. Currently focused on frontend development with a red, black, and white theme, with plans to integrate a backend and make it a full-stack project in the future.
